Spanish: Intermediate

WORK EXPERIENCE

OLOS TECNOLOGIA E SISTEMAS (mid-sized software startup focused on delivering telesales solutions) São Paulo, BR

Front-end Developer Intern | **React.js, Next.js, Redux, Storybook, Material UI**

Dec 2024 – Current

- Collaborated with front-end developers to create and maintain responsive products using clean and responsive code, which increased productivity by 20%.
- Optimized web components and layouts for performance, usability, and scalability, generating improved user experiences.
- Participated in improvements to internal platforms, contributing to increased team productivity and the optimization of the company's internal processes.
- Contributed to enhancements for the enterprise Design System, leading to greater team productivity and performance, which contributed to agility in creating systems more rapidly.

UNIVERSITY PROJECTS

RESTAURANTTO | **Angular, TailwindCSS, TypeScript**

Aug. 2024

- Designed and developed a Minimum Viable Product (MVP) platform tailored for small food delivery businesses, offering features such as order and user management, and seamless integration with third-party services. The solution enhances operational efficiency and provides a scalable foundation for future growth. This solution was built with **Angular 17** and **Java Spring Boot**.

LEMBRAI | **React Native, Styled Components, Context API, React Hooks, TypeScript**

Feb. 2025

- Designed and implemented an automated MVP platform created for different types of drivers, offering features such as tax payment reminders, and finances dashboard and management. This solution was built with **React Native** and **Java Spring Boot**.
